How to Remove Glitch - Undercarriage. You will also need a torch to be extra careful. You can get a torch at your local hardware store called a tire iron. You'll also need a pump and a rag, so be sure to get a pump with at least a 1/2 foot long rubber hose. Hopefully you have a helper, because it's easier when there are two of you. Make sure he or she is standing back and is ready to catch the underside of the vehicle. When you are ready to remove the tire iron, inspect it for sharp edges. We had some problems with the first one we ordered. It was very jagged and caused the grip on the underside of the vehicle to be damaged.
