
Descarga Rslinx V2 54 Classic Gateway \\TOP\\

in order to use the rslinx classic gateway to communicate with the rockwell automation device, you need to first download the latest version of rslinx classic lite. this article was written to demonstrate the process of configuring the rslinx classic gateway, the gateway only supports the classic gateway. to start, you will need to first install the latest version of rslinx classic lite. you can download it from the rockwell site at no charge. then, you will need to create a profile. to do this, you will need to open the rslinx classic lite program and click on the file tab, and then on the new profile button. in the dialog box that opens, select the profile type of rslinx v2 classic gateway as shown below, and click ok. once you click ok, the rslinx v2 classic gateway will create a profile. you can then click on the new button on the top toolbar to open the create profile window. click on the browse button to locate the profile and then click ok. the profile for rslinx v2 classic gateway should appear as shown below. you can then click on the create button to create the profile. the gateway will now be configured to communicate with the rockwell automation software. you can test that the profile works by double-clicking into the value column of any node and the gateway will provide the value. 2. you will see an option to configure the gateway automatically at this time. i do not recommend doing this. check the box labeled configure gateway as user at startup. this will cause the gateway to be automatically started. if you set it as a service, you will need to do that yourself.
