It starts with some standard tools like Healing Brush, the Curves adjustment tool and the Clone Stamp. On the right side is the History tab, which is a record of the operations you have performed over the last few weeks or months. Now look at the top of the History area. It is now purple, and the last completion time in this area is the last time you saved the image. Now look at the bottom, where there is a colored square in the bottom right of the History area circles. It is an area that is designated for other document versions. The colors are saved for my last version of my document when I closed it. You can filter what you see in this area by applying filters to this visible area. This can be very important when it comes to saving a document for approval. You may ask for approval at different stages in the document, or depending on whether someone else has edited it already.
